1932 Ford Roadster Highboy - You are viewing a 1932 Ford Roadster Highboy. This car is titled as a 1932 Ford. Craftsmanship is 2nd to none! I purchased this 32 from the gentleman that built the car. He is a full time mechanic and fabricator by trade. This was his personal car. Also, he drove this car to the LA Roadster show from Orlando. Body is a glass body by Dave Koorey. Has Full 4 piece steel hood with Louvers and Steel Grill Shell. The most authentic 32 Body I have seen including

external door hinges and functional cowl vent. Body is laser straight. Paint is show quality. Interior is extremely nice, done in old school style. Has Removable and foldable top by Rod Tops. Comes with side curtains that have never been used. Still has plastic on the clear windows. Frame was built by using American Stampings frame rails. Front end has a Vega Cross Steering box. Has Ford 8 Inch Rear End with 2:79 Gears for cruising. Has Power assisted brakes with Disc up front and drum rear. Stops on a dime! Motor is a Chevy 350 bored 30 over with mild cam. Has new Holley Carburetor, Edelbrock Torker Junior Aluminum manifold and new Shorty Ceramic Coated Headers. Has Gm steering column with Tilt, Lokar Shifter and Dolphin gauges. Exhaust is custom duals with Performance Mufflers and Custom Stainless Tips. Please view pictures and notice the wheels. These are American Racing Torque Thrust wheels that have been customized to add the Covers for the Moon Salt Flats look. They actually go right over the wheels! You will not find a nicer Street Rod. Very dependable and fun to drive!
